

**Energy Source (Fuel Mix)**  
April 2018 - June 2018

| <b>Energy Source</b> | <b>Percent of Total</b> |
|----------------------|-------------------------|
| Biomass              | 0.00%                   |
| Captured Methane     | 0.32%                   |
| Coal                 | 28.00%                  |
| Fuel Cell            | 0.03%                   |
| Gas                  | 30.26%                  |
| Hydro                | 1.58%                   |
| Nuclear              | 36.01%                  |
| Oil                  | 0.24%                   |
| Other                | 0.01%                   |
| Solar                | 0.36%                   |
| Solid Waste          | 0.54%                   |
| Wind                 | 2.46%                   |
| Wood                 | 2.13%                   |

**Air Emissions**

CO<sub>2</sub> is a “greenhouse gas” which may contribute to global climate change. NO<sub>x</sub> and SO<sub>2</sub> react to form acids found in acid rain. NO<sub>x</sub> also reacts to form ground level ozone, an unhealthy component of “smog”.

**Source (lbs per MWh)**

|                 |          |
|-----------------|----------|
| Carbon Dioxide  | 912.4841 |
| Nitrogen Oxides | 0.5252   |
| Sulfur Dioxide  | 0.6675   |

**Environmental Information for Standard Offer Service  
Provided by Energy Me**

**This disclosure is required by the District of Columbia Public Service Commission.**

The following environmental information is for Energy Me Customers with Standard Offer Service. Standard Offer Service is provided to those customers who have not chosen an alternative to electricity supplier.

Power plants can generate electricity from a number of different fuel sources, resulting in different emissions. Energy Me will report fuel sources and emissions data to customers twice annually, allowing customers to compare data among the companies providing electricity service in the District of Columbia.

The provided Standardized Environmental data is from the dates of April 2018 through June 2018 based on the most recent year’s available data in the PJM System Mix. The PJM System Mix information can be accessed at <https://gats.pjm-eis.com/gats2/PublicReports/PJMSystemMix>. **For additional information, visit our website at [energy.me](http://energy.me).**
